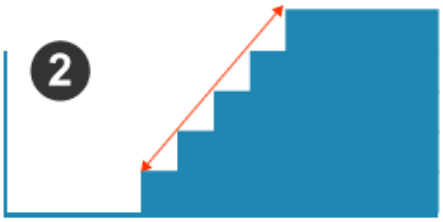
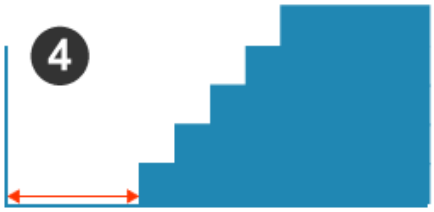
Measurement 2: Measure from the edge of the upper landing (like Measurement 1) to the edge of the first stair's tread at the bottom.



Measurement 3: Measure the width of your stair's treads.

Measurement 4: Measure from the edge of the first stair at the bottom to the wall (or door), if there is one.



Measurements 5-7: These are the tread measurements.

Measurement 8: Measure from the top step to the nearest door, wall or other obstruction at the top of the stairs.
